

Machine Learning Project Report 2025

Intrusion detection systems (IDS) using Machine Learning

Théo HARDY
Gaël LE MOUEL
Adam FERRE

December 11, 2025

Contents

1	Business Scope and Problem Formalization	3
1.1	Business Case	3
1.2	Problem Formalization	3
2	Data Description and Exploration	3
2.1	Dataset Source	3
2.2	Exploratory Data Analysis (EDA)	3
2.3	Data Splitting	3
3	Methodology	3
3.1	Preprocessing	3
3.2	Algorithm Description	3
4	Algorithm Implementation and Results	3
4.1	Hyperparameter Tuning	3
4.2	Performance Metrics	3
4.3	Comparison with Baseline	3
5	Discussion and Limitations	3
5.1	Addressing Obstacles	3
5.2	Limitations	3
6	Conclusion	3

1 Business Scope and Problem Formalization

1.1 Business Case

1.2 Problem Formalization

2 Data Description and Exploration

2.1 Dataset Source

[1]

2.2 Exploratory Data Analysis (EDA)

2.3 Data Splitting

3 Methodology

3.1 Preprocessing

3.2 Algorithm Description

4 Algorithm Implementation and Results

4.1 Hyperparameter Tuning

4.2 Performance Metrics

4.3 Comparison with Baseline

5 Discussion and Limitations

5.1 Addressing Obstacles

5.2 Limitations

6 Conclusion
